About the Role

We are looking for an LPG Engineer to join our team!

In this role, you will carry out service and repair work on LP Gas Installations and appliances. You will be responsible for appliance problem diagnosis and assist with the installation of boilers.

The ideal candidate will have excellent communication and organisational skills. They will have good attention to detail and have a high level of self-motivation. A successful candidate will have a positive attitude and be adept at solving problems.

It is essential to have a background in mechanical or electrical engineering.

Job Tasks

- Adherence to safe working practices and Health and Safety instructions.
- Taking and following instructions from the Heating Services Operations Staff.
- Service appliances, replacement of parts, and fault diagnostics.

- All associated documentation to be completed with care and ensure that it is completed correctly.
- Responsible for dealing with customers ensuring excellent customer service at all times.
- Be involved on a rota basis with Stand By / 'On Call' cover over the weekend and early evenings.

If you think you have the skills and experience we are looking for, we would love to hear from you!

Here at the BATA Group equality, fairness and diversity are the foundation of our organisation. We are proud to be an equal opportunity employer who is fully committed to a policy of treating all its employees and job applicants equally. We value the differences that a diverse workforce brings to our organisation and encourage applications from everyone.
